Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), a method for use in a printing system supporting line-conditioned data stream (LCDS) data by receiving network data from a plurality of network components, receiving line-conditioned data stream data from one of the LCDS source and the plurality of network components, the line-conditioned data stream data representing LCDS jobs; scheduling the network print jobs and the LCDS jobs for processing by the printing system; designating the LCDS job as a container print job; sequentially processing the network print jobs and the container print job based on the scheduling; creating at least one job entity based on the container print job; processing the container print job by processing the at least one job entity; monitoring a status of the processing of the at least one job entity; and selectively manipulating the at least one job entity by an operator as claimed in claim 1. Similar features are claimed in claims 11 and 13. Therefore, claims 11 and 13 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
